COLLEGE OF COMPUTING AND INFORMATICS

DEMO GIT REPO

System architecture

THEN SWITCH TO LIVE Word lookup at localhost:8000: pick “water” → yald, read live from PostgreSQL

The page shows the SQL it ran on v_gloss_candidates · then /health/db → SELECT version(). Have both open in tabs before your turn starts.

COLLEGE OF COMPUTING AND INFORMATICS

Packaged with Docker Compose: runs on a laptop, or on the course k3s cloud with its shared PostgreSQL and Ollama.
